PROFILE

Frontend Developer | React.js | Startup & Brand Websites
I am a **passionate Frontend Developer** specializing in **React.js** and creating **modern, responsive websites** for startups and brands. I turn **designs into fully functional, user-friendly interfaces** with attention to detail and clean code.
What I do:

- Build **landing pages, e-commerce frontends, and brand websites** with React.js and Tailwind CSS
- Convert **Figma or PSD designs into pixel-perfect, responsive React components**
- Implement **signup/login flows, product listings, and interactive UI components**
- Focus on **mobile-first design, performance, and polished user experience**

I help startups and small brands **bring their vision to life online** with **professional, high-quality frontends** that impress visitors and drive results.
